TERMS & CONDITIONS

IFDA's Solutions Conference

Fort Worth Convention Center | Ft Worth, TX

T190670923

September 11 - 12, 2023

You are entering a contract which limits your possible recovery in case of loss or damage. The terms and conditions set forth below become a part of the contract between Shepard Exposition Services, and you, the Exhibitor.

Exhibitor is deemed to accept these terms and conditions when any of the following conditions are met:

Exhibitor materials are delivered to the Shepard warehouse or to a show or exposition site for which Shepard is the Official Show Contractor, or an order for labor and/or rental equipment is placed by the exhibitor with Shepard.

Definitions and Shepard Responsibilities: The name "Shepard" shall be construed within the meaning of this contract as Shepard Exposition Services, Inc. and its employees, officers, agents, and assigns including any subcontractors Shepard may appoint. The term "EXHIBITOR" refers to any party who contracts for services with Shepard. Shepard shall be responsible only for those services which it directly provides, and hereby agrees to execute its contracted duties in good faith. Shepard assumes no responsibility for any person, parties, or other contracting firms not under Shepard's direct supervision and control. Shepard shall not be responsible for loss, delay, or damage due to strikes, lockouts, work stoppages, natural elements, vandalism, acts of God, civil disturbances, power failures, acts of terrorism or war, or any other causes beyond Shepard's reasonable control; or for ordinary wear and tear in the handling of materials. Due to the security and liability requirements, Shepard personnel will unload all vendor materials from the loading docks to the booths. Exhibitors may not utilize powered mechanical equipment.

Indemnification: The exhibitor agrees to indemnify, forever hold harmless, and defend Shepard and its employees, officers and agents from and against any and all claims, causes of action, fines, penalties, damages, liabilities, judgments, and expenses on account of personal injury or death, damage to or loss of property or profits arising out of, or contributed to by any of the following: (1) exhibitor's negligent supervision of any labor secured through Shepard or the negligent supervision of such labor by any of the exhibitor's employees, agents, representative, invitees, and/or exhibitor appointed contractor (EAC); (2) exhibitor's negligence, willful misconduct, or deliberate act, or such actions of exhibitor's employees, agents, invitees, representatives, or EACs at the show to which this contract relates, including but not limited to the misuse, improper

use, unauthorized alteration, or negligent handling of Shepard equipment; or (3) exhibitor's violation of Federal, State, or Local ordinance; or violation of show regulations and/or rules as published by the Facility and/or Show Management.

Payments are due prior to delivery of services or equipment to EXHIBITOR unless other credit arrangements have been made. All payments shall be in U.S. currency, MasterCard, VISA, or American Express, debit cards, or check, provided there is sufficient customer credit in Exhibitor's form of payment to completely satisfy the amount owed by EXHIBITOR to Shepard. Undersigned authorizer acknowledges and agrees that all applicable charges for services rendered to the EXHIBITOR will be applied to the credit card on file in the event other form of payment is not tendered prior to the close of the trade show. In no instance shall any Exhibitor be extended credit beyond 30 days after the close of the Show. If there are any outstanding balances owed by EXHIBITOR to Shepard which have not been paid after 30 days following the close of the Show, then these unpaid balances shall bear interest at the rate of 1-1/2% per month (18% per annum). Exhibitor will be responsible for all charges incurred by Shepard while endeavoring to collect this account. If EXHIBITOR provides a credit card for payment and the credit card transaction is declined, EXHIBITOR hereby authorizes Shepard to process the outstanding balance in multiple smaller increments that total the amount of the outstanding payment obligation. In the event that a THIRD PARTY (AGENT) orders on behalf of the EXHIBITOR and the named THIRD PARTY does not discharge payment of the invoice prior to the last day of the show, charges will revert back to the EXHIBITOR. All invoices are due and payable upon receipt, by either party.

Show Site Orders: Services ordered at show site will require full payment at the time the order is placed. Purchase orders may not be used in lieu of payment. Regular prices will apply to all show site orders. Floor orders are limited to availability.

Third Party Orders: If you contract your work to a display or exhibit house and require services from Shepard, the payment policy stated above applies. Please pass this information on to them. A Third Party Payment form must be completed and submitted

three weeks prior to show opening. If your elected Third Party Provider fails to pay for Shepard Services, the exhibitor is still responsible for paying all invoices to Shepard.

Equipment Audits: EXHIBITOR should be advised that routine audits of Exhibitor booths for service usage are conducted during the Convention. Should the result of such an audit indicate that equipment or services is in fact being used that has not been paid for, the Exhibitor will be charged for the equipment or service at the applicable rate.

Exchanges and Cancellations: On-site exchanges and cancellations in orders will be assessed a 100% pick-up fee. Custom products: All orders cancelled by the exhibitor within 30 days of first day of exhibitor move in day may be subject to cancellation fees up to 100% of the total order, based upon the status of move-in, work performed and/or Shepard set-up costs or expenses. Equipment and Furnishings: There are no exchanges or refunds once item has been delivered to your booth. Cancellations must be received in writing 14 days prior to first exhibitor move in day. Labor: Cancellations must be received in writing before 48 hours of 1st day of exhibitor move in, otherwise a 1 hour per man ordered will apply.

Invoices: Prior to close of show, an invoice will be prepared and emailed to the booth contact on file for your review. Credits will be issued at show site only. If you have any questions or want to pay your invoice by check or cash, please see our customer service representatives at the service desk on-site.

Outbound Services: All outbound services will be processed on your credit card. A copy of the receipt and invoice will be mailed within 10 days of the close of the show.

Rental Responsibility: All materials are on a rental basis and shall remain the property of Shepard. The customer shall be held financially responsible for any damage to Shepard equipment used by the customer. Prices quoted are for the duration of the show and include installation, rental, and removal except where indicated. If skirting and carpet colors are not selected, show colors will prevail.

Tax Exempt Status: If you are tax exempt in the state where the show is held, a copy of the certificate must accompany your order.

Tax Rates: State tax regulations and tax rates can change after the date of publication. Prevailing state tax rates will supersede any published rate.

Exhibitor Information: Exhibitor permits all contact information provided to Shepard to be used by Shepard and shared with other entities assisting in the production of the event in question. Facsimiles and email communications may include show information, promotional materials, advertising statements and other commercial notices. Permission may be revoked by the EXHIBITOR in writing.

Cancellation or Event Postponement: In the event the exposition or event is cancelled or postponed, Shepard reserves the right to charge for services rendered in preparation of the event or exposition as well as non-refundable costs incurred by Shepard.

Insurance: It is understood that Shepard is not an insurer. Insurance should be obtained by the EXHIBITOR. It is highly recommended that exhibitors arrange All Risk coverage which usually can be done by endorsements to existing policies. Exhibitor's materials should be insured from the time they leave their firm until they are returned after the close of the show. Insurance and liability against theft or property damage to equipment or exhibit material owned or rented by EXHIBITOR, or bodily injury occurring within the confines of Exhibitor's booth, remain the sole and complete responsibility of EXHIBITOR. Except where prohibited by law, the EXHIBITOR and its insurers waive all rights of recovery or subrogation against Shepard and their respective directors, officers, employees, and agents.

Claim(s) for Loss and Payment For Services: Exhibitor agrees that any and all claims for loss or damage shall be submitted to Shepard prior to the conclusion of the show when the alleged loss or damage occurred prior to that time, and in all cases within 30 days of the conclusion of the show. For claim reporting purposes, the "conclusion" of the show shall be construed as the end of the day on which exhibitor

must vacate the show site. All claims reported after the 30-day period will be rejected. In no event shall a suit or action be brought against Shepard more than one year after the date the loss or damage occurred. Payment for services may not be withheld. In the event of any dispute between Shepard and the exhibitor relative to any loss or damage claim, the exhibitor shall not be entitled to and shall not withhold payment for Shepard services as an offset against the amount of the alleged loss or damage. Any claim against Shepard shall be considered a separate transaction and shall be resolved on its own merit.

Limits of Liability: If found liable for any loss, Shepard's sole and exclusive maximum liability for loss or damage to Exhibitors materials and Exhibitor's sole and exclusive remedy is limited to \$.50 (USD) per pound per article with a maximum liability of \$100.00 (USD) per item, or \$1,500.00 (USD) per shipment whichever is less. All shipment weights are subject to correction and final charges determined by the actual or re-weighted weight of the shipment. Shepard shall in no event be liable for collateral, exemplary, indirect costs or damages, or loss of sales resulting from, or related to, a claim for loss of or damage to material.

Inbound and Outbound Shipments: Consistent with trade show industry practices, there may be a lapse of time between the delivery of shipment(s) to the booth and the arrival of the exhibitor or his representative. During such time, the materials will be left unattended. Shepard is not, and cannot be, responsible for loss, damage, theft, or disappearances of exhibitor's materials after same have been delivered to the exhibitor's booth. Similarly, there may be a lapse of time between the completion of packing and the actual pick up of exhibitor's materials from the booth for loading onto a carrier. During such time, the materials will be left unattended. Shepard shall not be responsible for loss, damage, theft, or disappearance of exhibitor's materials before same have been picked up for loading after the show. All materials will be checked at the booth at the time of loading using document(s) submitted by the exhibitor and notations of exceptions to conditions of materials or piece counts will be made on said document. Shepard assumes no responsibility for loss, damage, theft, or disappearance of exhibitor's materials after same have been delivered to exhibitor's appointed carrier or agent for transportation after the show. Shepard loads materials onto the carrier's truck under the supervision of the carrier driver who checks and signs for the materials. Shepard assumes no liability for any materials after the carrier assumes custody of materials. If exhibitor's designated carrier fails to show by the move out deadline after a show, Shepard shall have the authority to route exhibitor's shipment via an alternate carrier, or return shipment to a local warehouse for disposition at exhibitor's expense.

Packaging, Crates, and Empty Containers: Shepard shall not be responsible for surface damage to loose or uncrated materials, pad-wrapped, or shrink-wrapped materials. Shepard shall not be responsible for concealed damage, damage to carpets in bags or poly, or damage to materials improperly packed. Shepard shall not be responsible for crates and packaging unsuitable for handling, partially assembled, or having prior damage. Affixing "Empty" storage labels to containers is the sole responsibility of the exhibitor or their representative. All previous labels should be removed. Shepard assumes no responsibility for removal or mis delivery of containers with old labels or incorrect information on labels or for loss or damage to materials stored in containers labeled "empty."

SHIPPING VS. MATERIAL HANDLING

Make freight management easy.
With Shepard, You Can.

What is shipping?

Shipping is the process of a carrier picking up items from your office or any place of origin and transporting it to the dock of either the advance warehouse or event facility. Shipping is separate from Material Handling. Exhibitors may use any carrier they want, including Shepard Logistics.

What is material handling?

Material Handling is the process of receiving a shipment from your carrier and managing on-site handling of the shipment through the event cycle. It is a standard event procedure with associated costs typically based on shipment weight.

Material Handling Process:

- Unloading freight from your carrier once it arrives at the receiving dock.
- Transporting freight from dock to your booth space.
- Removing empty shipping containers (boxes, crates and pallets) from your booth.
- Temporarily storing your empty shipping containers during the show.
- Returning empty shipping containers to your booth at the close of event.
- Transferring your freight back to the loading dock.
- Loading your freight into your carrier's delivery vehicle for return shipping.

One easy way to keep charges low?

Consolidate. Whether you ship to the advance warehouse or directly to show site, it is in your best interest to consolidate your shipment as much as possible. Each shipment that arrives separately is assessed the minimum charge.

So, keep your charges low by skidding items so that they are sure to arrive together.

SHEPARD LOGISTICS

Special Handling Definitions

Rate as shown on Material Handling Rate Form, approx. 30%.

Shipments received that are packed in a manner as to require additional handling/labor are deemed special handling. Examples of shipments falling into this category would be constricted space unloading, ground unloading, stacked shipments, designated piece unloading, shipment integrity, mixed shipments, no bill of lading or documentation, carpet/pad only shipments.

Constricted Space

Freight packed in trailer to full capacity. Shipments are not easily accessible because trailer is loaded by cubic space, or top to bottom and side to side.

Stacked Shipments

Shipments with multiple pieces stacked on top of one another throughout the majority of the truck or trailer requiring unstacking during the unloading process.

Mixed Shipments

Mixed shipments are shipments that contain a mixture of uncrated and crated materials, and the uncrated portion is minimal deeming the shipment special handling but not uncrated. But in cases where greater than 50% of the load by volume is uncrated the load will be categorized as uncrated.

Shipment Integrity

Shipments loaded on a carrier in a manner requiring separating or sorting to reestablish the integrity of each shipment.

Carpet/Pad Only

Carpet and/or pad only shipments are time and labor intensive, and require additional manpower and tools (e.g. carpet poles, flatbed carts or scooters, dollies).

No Documentation

Shipments received from small package carriers (including, among others, Fed Ex, UPS, & DHL) that are delivered without documentation or bills of lading that require additional sorting, processing, and tools for delivery.

Designated Piece Unloading

Shipments loaded in such a manner that require the unloading/loading crew to be directed by driver remove items in a particular order, or unloading and reloading items to reach certain pieces behind others remaining on the trailer.

Padded Van Deliveries

This applies to van line carriers that transport freight at cubic displacement rates, operate a non-standard dock height equipment, require freight on the truck to be unloaded in a specific order or orientation, or require that freight on the truck be moved to unload the actual delivery.

Disposal Fee

A disposal fee & minimum 1 hr. labor will be charged for all booth materials (booth displays, flooring, etc.) that are left unclaimed after show move out.

Overtime/Double-time

SURCHARGE: Overtime: 30% • Double Time: 50%

Shipments that are moved and/or handled on overtime and/or double time hours will incur a surcharge based on the handling times noted on the receiving/shipping documents. Drivers picking up outbound shipments will be sequenced for loading ONLY after a bill of lading is submitted to the Shepard Service Desk AND the driver has checked in.

Warehouse Overtime/Double-time

SURCHARGE: Overtime: 30% • Double Time: 50%

Advanced shipments may be received during straight time hours at the warehouse location, however an overtime/double time surcharge may be applied to an advanced warehouse shipment due to required delivery schedule based on show move-in and move out hours beyond our control. This would also be true if freight was received after hours at the warehouse trapping facility.

Early/Late Shipments to the Warehouse

SURCHARGE: 25% • 35003

A surcharge will apply to shipments not arriving within the published dates (refer to Show Information page for dates) for advance warehouse or arriving on show site after show opening. Any shipment arriving to show site after show open will be charged a surcharge.

Uncrated Shipments

Rate as shown on Material Handling Rate Form

An additional charge of 50% (or as stated on Material Handling Authorization page) of the applicable material handling charge at the time of delivery shall be charged for all loose, uncrated, or unprotected shipments received at the show site docks. The charge is a one-time charge that includes both move-in and move out of the show, and is based on the weight of the shipment handled.

Off-Target Deliveries

SURCHARGE: 15% • 35004

For targeted shows (exhibitors who received/requested a Targeted Date/Time), a surcharge will apply if shipment is not delivered (or carrier has not checked in) during assigned target date/time.

Marshaling Yard

FEE: \$30 per Shipment • 35250

Where Shepard Exposition Services as the show contractor must lease space for Marshaling Yard operations because no space is provided by the facility, Shepard may charge a one time fee per shipment processed inbound and/or outbound through the Marshaling Yard.

Reweigh of Shipments

FEE: \$25.00 per forklift load • 35282

An additional charge per forklift load will be applied to shipments that have to be reweighed at the dock due to the lack of a certified weight ticket, or an incorrect or understated weight on a delivery document.

Empty Crate Storage

FEE: \$25.00 per piece • 35105

A charge per crate, carton or skid applies when Shepard handles the storage and return of empties from a shipment not received by Shepard and therefore not subject to material handling charges.

Light Weight Shipments

Shipments weighing 40 lbs. or less will qualify for the light weight shipment rate. Shipments exceeding 40 lbs. will be billed standard Material Handling fees at the prevailing show rates. All shipments must have certified weight tickets.

Envelope Deliveries

FEE: \$10.50 per envelope • 35007

During show hours at the show facility, a charge will apply to receiving and delivering envelope packages to your booth.

Priority Empty Labels

FEE: \$75.00 per label • 35064

Limited quantities available on a per event basis.

Mobile Spotting

FEE: \$200 per round trip

All vehicles must be escorted in and out of building by Shepard personnel.

MATERIAL HANDLING 101

Shepard Exposition Services is the sole provider of Material Handling Services. Exhibitors or their hired EAC/Carriers may not deliver freight to exhibit spaces or operate any type of mechanical or powered equipment. Material handling is a billable service.

What is material handling (also referred to as drayage)? Material handling is the process of unloading your freight from your shipping carrier, either at the warehouse or show site, delivering it to your booth, storing your empty containers (empties) if required, returning of your empties at the close of show, and then reloading your freight back onto your shipping carrier.

What is the definition of "freight"? Any exhibit materials shipped or delivered to the advance warehouse or show facility via shipping carrier, POV, or delivery truck.

What is the difference between material handling and shipping? Shipping is the process of transporting your shipment from its origin to its final destination. Material handling begins at the time your shipment arrives to the docks (please refer to "What is material handling?" for the full definition.) These are 2 different items and are billed differently.

Do I need to order a forklift to unload or reload my freight? No, please do not order a forklift for unloading/reloading of your materials.

What does CWT mean? CWT is an acronym for Century Weight.

What determines how much I'm charged? Charges are based on certified inbound weight ticket included with your shipment as well as the type of service required.

How do I calculate material handling charges? Material handling, whether used completely or in part are offered as a round trip service. When recording weight, round up to the next 100 lbs. EXAMPLE: 285 lbs. = 300 lbs./100 lbs. = 3 X RATE = \$ Amount or minimum charge, whichever is greater.

Will there be any additional charges? Additional charges may apply. Please review the Material Handling Authorization and Material Handling Additional Services forms included in the manual for all applicable fees.

What are Light Weight shipments? All shipments regardless of carrier that weigh 40 pounds or less. Shipments need to have certified weight tickets or other verifiable weight noted upon delivery. Shipments without certified weight tickets may be subject to special handling or reweigh fees. Packages that arrive separately at different times or days will be billed separately.

All shipments, regardless of carrier, weighing 41 lbs. and up will be billed using the standard material handling rates listed in the kit and billed at a 200 lb. minimum.

How do I calculate my Light Weight shipment?

Charges for Light Weight shipments are total shipment weight, per delivery. Any shipment above 40 lbs. will not qualify for this rate. Please be advised that your whole shipment may not arrive to its destination at one time. Therefore you may be charged per each delivery.

What are Crated Materials? Materials delivered that are skidded or in a container that can easily be unloaded/reloaded with no additional handling required.

What are Uncrated Materials? Materials delivered that are loose, pad-wrapped or unskidded without proper lifting bars and/or hooks.

What is Special Handling? Shipments received that are packed in a manner as to require additional handling/labor are deemed special handling. Examples of shipments falling into this category would be constricted space unloading, ground unloading, stacked shipments, designated piece unloading, shipment integrity, mixed shipments, no bill of lading or documentation, carpet/pad only shipments.

What are Advanced Shipments? All shipments that are addressed to the advance warehouse address (please refer to "Advance Warehouse" shipping labels included in this manual). Shepard will begin accepting your shipments 30 days prior to first show open day (date may vary depending on show schedule).

The warehouse will receive shipments Monday-Friday, 8:00 AM - 4:00 PM, excluding holidays. Shipments must arrive by advanced warehouse deadline date to avoid late surcharge. (Please refer to the "Show Information" page included with this manual for deadline date.)

Crates, cartons, skids, fiber cases, and carpets can be accepted at the warehouse, but DO NOT ship crates weighing over 5,000 lbs., loose/uncrated shipments and/or machinery to warehouse. You must ship those items direct to show site.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required.

All shipments must be prepaid, no collect on delivery shipments will be accepted.

What are Direct Shipments? All shipments that are addressed directly to the exhibit facility (please refer to "Direct to Show" shipping labels included in this manual).

Shipments must arrive during published exhibitor move-in times only. Do not ship direct to show site in advance. If delivery cannot be guaranteed to arrive during exhibitor move-in, shipment must go to advance warehouse.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required.

Crates weighing over 5,000 lbs. or loose/uncrated shipments must be shipped direct to show site to arrive during exhibitor move-in times.

All shipments must be prepaid, no collect on delivery shipments will be accepted.

What is and why would I need liability insurance? Accidents happen, therefore, most show organizers and facilities require liability insurance. Please refer to your booth contract for exact minimums required.

Please make sure your materials are covered from the moment they leave your company location to the time they return after the close of the show.

If applicable, included in your manual is information and an application for liability insurance and booth coverage can also be purchased to protect your valuable exhibit materials.

Outbound Shipping You must complete a Shepard Material Handling Agreement (MHA) for all outbound shipments. A MHA will be distributed at show site if all services have been paid in full, or you can request one at the customer service desk.

Upon completion of packing and labeling of your materials, complete the bill of lading (MHA) with all required information, and return to the customer service desk. If you have questions on how to complete your bill of lading (MHA), please ask a Shepard customer service representative located at the customer service desk.

If you are NOT using the designated show carrier, you must call your carrier with pick-up information. If your carrier fails to pick up your shipment, Shepard Logistics will either reroute your freight through the carrier of our choice or return to the local warehouse (whichever is indicated on your MHA).

Equipment. Exhibitors or their EACs may not utilize or operate any type of material handling mechanical or powered equipment. If you need assistance, please contact us to order labor and equipment.

SHEPARD GRAPHIC GUIDELINES

DIRECT TO SUBSTRATE PRINTING.

Ensure your brand is professionally showcased.
With Shepard, You Can.

Our talented, in-house design team provides graphic layout services to ensure a seamless transfer of files for print and production. If files are being provided, please provide these guidelines to your designer to use as a roadmap for designing and submitting graphics.

Document Size & Specs

- All artwork should be created at 100% size at 150 dpi or in a proportionally scaled down format.
examples: 50% at 300 dpi OR 25% at 600 dpi
- Please mark artwork size if scaled down.
example: DESIGNED AT 50%
- All content should be kept within the live area, leave approximately 2" all the way around artwork to ensure sign holder or structure metal does not cut off content.
- When working between Adobe programs, DO NOT copy & paste objects from Illustrator to InDesign files. This causes objects to not print correctly. Save elements from Illustrator and place them in InDesign.

Acceptable File Formats

Shepard uses the most current version of Adobe Creative Cloud®. If providing native files from another version, please also provide an .idml file. **WE DO NOT ACCEPT:** Microsoft® Word®, Excel®, or PowerPoint® files.

PROGRAM	FILE EXTENSION	SPECIAL CONSIDERATIONS
 Acrobat	.pdf	Must be high resolution with fonts embedded.
 InDesign	.indd or .idml	Images embedded and fonts changed to outlines or send a packaged file with fonts and images.
 Illustrator	.ai or .eps	Vector artwork. Images embedded and fonts changed to outlines or send a packaged file with fonts and images.
 Photoshop	.psd .tiff .jpeg .eps	Raster artwork. Must be built in CMYK color space.

Color

- Artwork must be created in the **CMYK color space**.
- If **PMS color matching** is required during the printing process, please **use Pantone®+ Solid Coated swatches** in your artwork.
- Converting color from RGB to CMYK will change the vibrancy and the look of some effects, DO NOT design artwork in RGB. Colors may vary due to output devices.

RGB Color Space.

CMYK Color Space.

Fonts & Links

If creating artwork in Adobe® InDesign® or Illustrator® there are two options when supplying fonts.

- **Change fonts to outlines.** This prevents fonts defaulting or being substituted throughout the layout and production process. *REMEMBER: if creating outlines, text is no longer editable.*
- **Package the fonts.** From InDesign or Illustrator select File → Package → Check “Copy Fonts” and submit PC format TTF fonts or OTF fonts with your artwork.
- **Package the links.** From InDesign or Illustrator select File → Package → Check “Copy Linked Graphics” and submit all images with your artwork.

SHEPARD GRAPHIC GUIDELINES

CONTINUED

Artwork can be created in several ways.
Here are some things to consider.

Vector

- Vector-based artwork is resolution independent and can be enlarged or reduced without loss of quality.
- This is the preferred file type and is most often created in Illustrator and used for creation of logos and icons.

Raster

- Raster-based artwork is resolution dependent and will reproduce poorly if the appropriate file resolution is not supplied correctly.
- If supplying raster art, it is best to save your artwork in a 1 to 1 (full size) output ratio at 150 dpi or higher. Lower resolutions (1MB or smaller) will result in reduced image quality. File size should not exceed 200MB (if possible).
- Raster images are most often created in Photoshop and is most often used for photographic images.

Vector Logo at 100% scale.

Vector Logo at 200% scale.

Raster Logo at 100% scale.

Raster Logo at 200% scale.

Resolution

- Artwork should scale to 150 dpi at 100% scale to ensure the artwork remains high resolution when printed at full size. See examples and samples below.

*examples: 1:1 or 100% - resolution no less than 150 dpi
2:1 or 50% - resolution no less than 300 dpi
4:1 or 25% - resolution no less than 600 dpi*

- Images pulled from the Internet are NOT suitable for high quality, large format printing. These images are low resolution and will not reproduce well.
- Verify resolution by viewing artwork on the screen at full size in high definition. Observe image from different distances away, artwork is typically view from a couple feet away.

Before Sending Files

- Please name your files appropriately for easy identification.

*examples: Poster_22x28.pdf
Panel A_1920x898_Qty3.pdf
Shepard_Booth1905_Panel A.pdf*

- Clients should compress information that they transfer electronically (.zip).

NOTE: Please provide a JPEG thumbnail or low resolution PDF of the graphic for the Account Executive to view, this helps when creating/entering orders in our system.

Submitting Your Files

- **FTP.** Ask your Account Executive to create a folder in the "Dropoff Folder." Packaged files should be compressed (.zip).

Website: files.shepardes.com

Login: **sesftp**

Password: **ftpftp**

- **Email Attachment.** MAXIMUM SIZE: 10MB
- **Large File Transfer Site.** DropBox, YouSendIt, WeTransfer, Hightail, etc.

THINGS TO KNOW.

All signs must be designed to comply with Show Organizer rules and regulations and facility limitations. Include engineer-stamped drawings with hanging instructions as well as a set of assembly instructions (placement/orientation/height from floor) with the order. Shepard accepts no liability for any work completed without such instructions, when required.

If your sign requires electricity, make sure it is in working order and in accordance with the National Electric Code.

Overhead Signs should be sent in a separate container directly to the advance warehouse using the Advance Hanging Sign Shipping Label.

Additional charges may be applied by Shepard due to regulations at the facility, weight limits, union jurisdictions, facility contracts, and in house providers. LABOR ORDERING INSTRUCTIONS

Step 1 Review Jurisdiction Information Below

The work outlined under Electrical Jurisdiction below must be performed by Edlen Electricians and cannot be performed by any other union or I&D House. Determine the type of work required in your booth space and complete the corresponding labor forms. The Power Delivery section indicates if power typically comes from the ceiling or the floor which may impact your booth layout.

Step 2 Complete the Appropriate Form

There is a different form utilized to schedule labor in your booth space. This allows exhibitors to pre-pay the estimated labor cost. This is only an estimate. Final labor and/or lift cost may be greater or less depending on time required and minimum labor charges.

A. Electrical Distribution

This form is used for the distribution of power on the floor in your booth space. This form should be completed for all island booths. Inline and peninsula booths need to provide this information only if power is required at any other location than the rear of the booth space.

Step 3 Return the following forms to Edlen

Electrical Order, Method of Payment, applicable Labor Forms and Electrical Layout.

ELECTRICAL JURISDICTION

WORK REQUIRING EDLEN ELECTRICIANS

1. Delivery of main power line to Island Booths only
2. Electrical distribution under carpet or overhead
3. Connection of all high voltage services
4. Hardwiring of any electrical apparatus
5. Installation of lighting hung from ceiling
6. Assembly & installation of lighting hung from truss
7. Motor, truss, rigging installation and cabling

POWER DELIVERY

Power is typically delivered from the floor in this facility and is brought to one main distribution point. From this point it is distributed to all other locations in the booth space. Depending on the total power requirements an electrical panel may be placed at the main distribution point. Electrical panels utilize a minimum of 1'x1'6" floor space. Please call if you have any concerns.

ELECTRICAL DISTRIBUTION UNDER CARPET

ALL Island booths MUST provide the information below. Inline and peninsula booths need to provide this information ONLY if power is required at any location other than the rear of the booth space. This information allows Edlen the opportunity to expedite move-in by having your power distribution complete prior to your scheduled move-in time. Complete all of the fields below including the "Labor Estimate" Section. Edlen will make every attempt to complete the work prior to your arrival, but it can not be guaranteed.

1. Provide an Electrical Layout Form:

- The electrical layout must indicate each power outlet and its location with exact measurements.
- The electrical layout must reflect booth orientation. Use surrounding booth or aisle numbers.
- Identify a main distribution point. Power is delivered to that point and then distributed to other locations. Inline or peninsula booths do not need to provide a main distribution point. Power will be located at the rear of the booth.
- If power is only required in one location in Island booths, indicate that location with measurements on your electrical layout.

2. What date will you begin building your booth?

- A. Date: _____ Time: _____

3. Will you be utilizing any specialty floor covering other than carpet, such as vinyl or wood?

- A. Describe flooring: _____
- B. Estimated date and time flooring installation will begin. Date: _____ Time: _____

4. Show site supervisor:

Name _____ Cell # _____

Email _____ Company _____

5. The exhibitor acknowledges there is a minimum 1 hour labor charge for the distribution of services and 1/2 hour for the removal of services. Island booths that only require power delivered to one location incur a 1 hour installation and removal charge.

6. In the event a lift is required to deliver power from the ceiling, or if the exhibitor requests power be delivered from above when it's available on the floor, lift charges will apply for installation and removal. There is a minimum 1 hour installation and 1 hour removal cost for both lift and labor. For safety reasons lifts require a 2 man crew.

RIGGING POLICY

To effectively ensure life safety and maintain the aesthetic and structural integrity of our ceiling, the following policies regarding rigging apply. The policies, rules, and regulations set forth in this document are meant as a guideline for this location, and may not be all inclusive. Additional policies, rules, and local regulations may apply.

It is understood that Inspire is responsible for all rigging decisions and will work with the venue, sales team and clients in advance to provide suggestions which will ensure that everything overhead is rigged properly and safely. Inspire riggers will not take rigging instruction or direction from anyone except qualified/certified riggers, licensed engineers, or the Inspire Director of Rigging.

Recommendations made by the rigging department are based upon manufacturer specifications; ETCP, OSHA, ANSI, ESTA, and USITT standards; as well as any local city, Fire, Police, State or Health regulations per location. Each property may also have their own internal regulations which may need to be recognized.

Inspire riggers have the final word on anything being rigged. Any questions or concerns by any local or Inspire rigger must be reviewed and approved by the Director of Rigging.

Inspire will provide all rigging hardware and labor required for attaching motors to the building and the truss to the motors. Anything overhead and over 50lbs is considered "Rigging". Any additional rigging for audio, video or scenic elements which attach to the truss will need to be discussed.

A rigging plot must be submitted and clearly display loads, equipment counts, equipment positions, and cable picks. This must be submitted electronically no later than 21 days prior to scheduled load-in. Acceptable file formats: DWG, VectorWorks, or scaled PDFs. Inspire is required to approve all rigging plots.

All requests for rigging services and hardware must be received 21 days prior to load-in date to ensure proper staffing. Requests received later than 21 days prior to load-in may incur additional fees.

The number of riggers required will be decided by Inspire based on size and production schedule of the event.

Exceedingly large rigs that support abnormal loads or non-uniform distribution of weight or hardware may require plans that have to be approved and stamped by a licensed engineer selected by the venue.

On shows larger than 25 points, a Production Rigger will be assigned and given 4-8 hours of pre-production time to review the plot and plan the load-in for the riggers, including any phone and email correspondence between client and production. Production Rigger will also provide 11"x17" and 24"x36" plots for riggers during load-in.

Cable bridges may be requested for cable runs of more than 4 Socalpex.

No rigging hardware will be used outside of the manufacturer's recommended use; no exceptions.

RIGGING POLICY

Inspire RIGGERS ARE RESPONSIBLE FOR THE FOLLOWING:

Create and install any necessary semi-permanent points where available.

Make all motor connections to the building structure via acceptable temporary or permanent rigging points.

Make all cable pick connections to the building, or any loads greater than 150lbs.

Determine who will mark the floors: event production or Inspire staff. Assist accordingly.

Lay out motor power and control. Coordinate motor cable runs with production and client.

Wrap the truss and float rig to working height. Level the truss out with tape measure; prepare for trim.

Make/verify motor connection to audio bumpers and fly to trim.

Make/verify motor connections, cage connections, and safeties for video, LED walls, etc.

Make/verify any scenic or decorative rigging elements.

Verify safety of entire rig when complete; run out to trim and laser level as necessary.

Clean and drop motor power and control as necessary. Secure the rig.

Clear and arrange leftover gear and cases, and prepare for load out.

Make arrangements for lifts to be powered and charged.

Verify departure/release status from Inspire and confirm schedule for next day or load out.

RIGGERS WILL NOT take a break or leave site without the Client or Lead Rigger's approval.

Cable picks, cable tie backs, audio cluster focus, cable swags etc., can be done by riggers after the main rig is flown to trim. These items can also be done by any lighting, video, or audio hand, when available. Based on schedule timing, it will be the client's decision whether to keep riggers on the clock to clean cable runs, or allow each department to handle their own cable management.

Riggers will provide the point of connection to the building, but are not required to run each department's cables. Each department will be expected to manage their cables properly, and be responsible for providing clean runs, bundles and swag. Riggers will not be expected to clean mismanaged cables in the air.

Rigging plots will be presented to Inspire no less than 21 days from production load-in date. We can run load calculations, but client must provide a complete instrument legend with manufacturer name, model number, and weights.

FORT WORTH CONVENTION CENTER

RIGGING REGULATIONS & SAFETY GUIDELINES

RIGGING EQUIPMENT GUIDELINES

All rigging hardware, steel, gackflex, spansets, and STAC chains must have proper visible manufacturer's tags with load ratings, including any cross-rented gear or gear provided by production or the client. Any hardware without proper identification tags will not be used as per OSHA and ANSI Standards.

Inspire will maintain annual load testing and maintenance certificates for all chain hoists based on the manufacturers' guidelines and ASME standards for overhead hoists, ASME B30.16d-1997.

Log books of all rigging steel, truss, harnesses, spansets, motors, training, etc., can be provided upon request.

A steel "safety" is required on each individual item suspended with a nylon sling. Gackflex slings are exempt. All nuts and bolts used overhead must be properly rated and all overhead hardware (eyebolt etc.) must be forged. Nothing from chain hardware stores is rated for overhead use and will not be permitted as rigging hardware.

Rigging equipment provided by the client or other vendors must also comply with these same guidelines and must provide all certifications upon request prior to load-in.

ON-SITE PRACTICES

Rigging from any lighting fixtures, plumbing or sprinkler fixtures, electrical conduit, air ducts or any support mechanism is strictly prohibited.

Inspire will not "dead hang" items over 150lbs or 10' in length with a scissor lift. Chain hoists or crank towers must be used.

Cable runs that consist of 4 or more socapex runs and are 10' or more away from the rig might be required to use a cable bridge and motors.

Additional weight cannot be applied to flown equipment after Inspire riggers leave the room.

Nothing in the air moves without Inspire riggers being present.

Only Inspire riggers will operate any chain hoist unless previously discussed and decided, or unless the client is providing their own motors and rigging.

Under no circumstances will anyone climb ground-supported truss or archways. The climbing of any truss structure can only be done with proper vertical and horizontal fall arrest systems.

Flown equipment may only be moved by a Inspire rigger. Riggers will remain on the call until all flown equipment is at trim height.

SCISSOR AND BOOM LIFTS

Inspire can provide lifts with operators. Clients may also rent or bring their own lifts.

Property Lifts: Owned by the property, operated only by the property. Inspire can operate when permissions and insurance allows.

Inspire Lifts: Owned or rented by Inspire. Operated only by Inspire or those covered by Inspire insurance. It should be determined in advance what qualifies a lift operator, and who operates the lifts once the riggers are cut. Lighting lift op, audio lift op, video lift op, etc.

External Lifts: Lifts provided and operated by the client, covered under client's rental agreement.

LOAD LIMITS

Load limits are typically 1,000lbs per point. See venue CAD drawings for specific details per property.

All beams must be wrapped with burlap or carpet when building the rigging points.

Bridles and side loads are not allowed in some venues.

Riggers will have final approval for all things flown or lifted overhead.

RIGGING REGULATIONS & SAFETY GUIDELINES

PPE: PERSONAL PROTECTION EQUIPMENT

Hard hats, safety vests, eye protection, steel toes, harnesses, fall arrest and life lines are required as necessary.

Hard hats must be inspected for structural cracks and fractures before and after each use.

Tape and stickers are not permitted on safety helmets as they prevent proper inspection of damage or defects.

Harnesses shall be inspected thoroughly before and after each use.

Harnesses are required in boom lifts, as per the manufacturer.

Harnesses are not required in scissor lifts by the manufacturer, but some venues may require the use.

BANNERS AND SIGNAGE

Banners and signs usually require custom rigging harnesses or hardware to suspend them properly. If the client does not have this gear, Inspire can assist in fabricating safe solutions, but arrangements need to be made in advance and may include additional time and charges.

Fabricating hardware for banners and signage: The materials used to temporarily rig have extremely minimal cost, so they are all expendable items.

Temporary safe rigging solution: The use of Rize Blocks along with 1/16" or 1/8" wire rope. When used together within the manufacturer's load limits, these items are industry-recognized and rated as a safe rigging practice. After use, the rig is disassembled, Rize Blocks are returned to inventory, and the wire rope is disposed of.

Disposable fabricated rigging: swagging custom hardware for client use is also acceptable, and becomes the client's property after use. They are paying for the materials and labor, so the client keeps the custom hardware. Items fabricated are for temporary use only and cannot become Inspire inventory, nor allowed to mix with Inspire inventory. Without manufacturer tags and load ratings, these items cannot be considered reusable inventory.

All signs, banners, and decorations hung in ballrooms and over 150lbs must be inspected and approved by a Inspire rigging supervisor prior to load-in.

Banner placement inside of ballrooms and or meeting rooms must be approved in advance through Inspire.

Signs may not obstruct fire exits or sprinkler heads, and must have a clearance of no less than 18".

All signs must meet NFPA and local Fire Marshal guidelines.

RIGGING POSITION DESCRIPTIONS

Riggers will be booked for the following positions as required, with the following expectations.

Rigging Manager: Manages various venues on a property, or properties with larger shows, or a larger number of shows. Books the labor & divides staff & freelance resources as necessary. Manages annual log books for rigging inventory, inspection records, training records and rigging staff requirements. Maintains the rigging inventory. Primary point of communication with the Director of Rigging, keeping current with safety codes and regulations. Will be ETCF Certified, OSHA 30, Tomcat University, CM hoist certified, Vector Works friendly, and we will provide all the training. Stays on the floor, working with the client and managing labor, not expected to Up Rig but can assist with Ground Rig duties as available. Maintains a Favorite Riggers list; including staff, local labor, union labor, freelance labor, out of town labor, etc. Completion of working at heights and fall arrest class, separate from the OSHA 10 or 30 class.

Production Rigger: Usually on larger shows, 60 motors or more. May be provided as client production staff or by Inspire as necessary. Communicates all rigging with the client. Advises on load limits, motor distribution and cable management. Determines the order of flight with client when each truss goes up. Runs load calcs. Creates working plots for the riggers. Chooses the R2 and has preferential selection of the riggers. Establish crew requirements, production schedule, necessary scissor, boom and fork lifts.

Lead Rigger: Typically, the lead local rigger (staff or labor), manages the local riggers as per Production Rigger's instructions on shows larger than 60 motors. Same duties as the Production Rigger on shows less than 60 motors. Has preferential selection of the riggers as necessary. Manages the Up Riggers, Ground Riggers, breaks and meals. Riggers will take breaks as needed and when they are at a safe stopping point at their discretion, which might not match actual break schedules. It is preferred that the Lead Rigger stay on the ground, available to the Production Rigger at all times, unless otherwise determined.

R2, Assistant Lead: #2, takes over if the Production or Lead Rigger becomes unavailable. Knows everything the Production Rigger knows. Has copies of all plots and production documentation. Capable of completing the end results as designed and expected.

Up Rigger: Climbing riggers or rigging from scissor/boom lifts; makes the point of connection to the building as necessary, following building guidelines. Responsible for anything overhead above 150lbs. Depending on the venue, will assist with ground duties after Up Rigging is completed and a proper break has been allowed. For arena rigging & extreme heat ceiling conditions, ground duties will be stated if necessary, prior to booking labor.

Down/Ground Rigger: Stays with the Up Rigger. Keeps the ground safe and clear, manages the safety of the people below the rigger. Sets the motors in place and lights up the point with a laser for the Up Riggers, sends up chains and necessary rigging hardware. Helps with placement of 8x/4x motor distros and helps run motor fly cables as available without neglecting the safety of the Up Rigger. Manages empty cases and leftover gear.

Motor Electric: Additional Ground Riggers or Electricians available for motor power distribution and control placement. Responsible for managing motor fly cables cleanly and neatly from the distro to the motor. Labels all cables, distros and controllers accordingly. Helps disconnect, clean and coil motor power and control lines or motor cable swags after rig is at trim. Provides or locates power sources for charging the lifts. Primarily meant to stay on the ground, but can become available for minor lift operations.
